Minutes of Research Advisory Committee Meeting

- The Committee chairperson opened the meeting by greeting all members reviewed the previous meeting.
- The Committee coordinator has opened the discussion on agenda points

Agenda Item	Discussion	Action Taken
1. Presentation and Approval of Research Proposal	<ol style="list-style-type: none"> The research scholar presented the proposed title, background, significance of the study, objectives, hypotheses, methodology, sample selection, tools, and plan of data analysis. Committee members critically reviewed the clarity of the research problem, relevance of the objectives, and alignment between variables and methodology. <p>Specific suggestions were given to:</p> <ol style="list-style-type: none"> Refine the research title for clarity and focus. Ensure SMART (Specific, Measurable, Achievable, Relevant, Time-bound) objectives. Justify the sampling method and sample size with statistical rationale. Align data collection tools with the research objectives. Incorporate recent references to strengthen the literature background. 	<ol style="list-style-type: none"> The scholar was advised to revise the proposal based on the feedback. Supervisor to review the revised version before resubmission. After revision, the Research Advisory Committee approved the proposal for submission to the Institutional Ethics Committee (IEC).

Conclusion:

The committee unanimously approved the completion of the scholar's research work. The meeting concluded with congratulations and best wishes for future academic pursuits.

Minutes of Research Advisory Committee Meeting

- The Committee chairperson opened the meeting by greeting all members reviewed the previous meeting.
- The Committee coordinator has opened the discussion on agenda points

Agenda Item	Discussion	Action Taken
Progress on Literature Review and Tool Development	<p>The research scholar presented a summary of the literature reviewed, including key findings, research gaps, and relevance to the current study.</p> <p>The committee noted that the scholar had reviewed a significant number of national and international studies from recent years, but recommended further inclusion of studies from the past 2 years to enhance current relevance.</p> <p>The conceptual framework was discussed, and alignment with objectives was assessed. The scholar presented a draft version of the data collection tool.</p> <p>Feedback was given to</p>	<p>The scholar was instructed to:</p> <p>Update the literature review with 5–10 more recent references.</p> <p>Incorporate committee suggestions into the tool design.</p> <p>Submit the tool to subject experts for content validation.</p> <p>Committee approved the revised literature review and permitted the scholar to proceed with tool validation and planning for pilot testing.</p>

Conclusion:

The committee unanimously approved the completion of the scholar's research work. The meeting concluded with congratulations and best wishes for future academic pursuits.
