WORKSHOP REPORT ON EDUCATION CARE AND RESEARCH

The Research Department Organized 1st inter college Workshop on 05.03.16 at 9am on Education care and Research. PG students and faculties of nursing, physiotherapy and naturopathy were attended the workshop.

Workshop was started with prayer song by I yr M.Sc.(N) students followed by welcome song the dignitaries enlighten the lamp.

Dr Indira.A, Principal spoke briefly about Nursing education and research, she highlighted that last 10 yrs Research has improved like peak in nursing profession but still little drawback was there due to time, she stressed that we have to overcome.

WHAT IS RESEARCH

■ Research in common parlance refers to a reach for knowledge. As a scientific and systematic search for pertinent information on a specific topic. In fact research is an art of scientific investigating.

According to Advanced Learners' Dictionary of Current English:

"A careful investigation or inquiry specially through search for new facts in any branch of knowledge."

LIMITATIONS OF EDUCATIONAL RESEARCH

2. Difficulties in observation:

Observation of human behaviour is more subjective than the observation of physical or biological phenomena. The subjectivity on the part of the observer has a direct impact on the interpretation and findings on which he bases his conclusions.

At 11am to 12pm Dr. Subramanian has given lecture on research and importance of Research in education.

e-mail : narayana_nursing@yahoo.co.in website : www.narayanannursingcollege.com

Good Characteristic of a research problem

- ▶ A good research problem begins by introducing the broad area in which your research is centered, gradually leading the reader to the more specific issues you are investigating.
- ▶ The statement need not be lengthy, but a good research problem should incorporate the following
- ▶ Beneficial for society
- ▶ Compelling Topic
- ▶ Supports Multiple Perspectives
- ▶ Generates research Question
- ▶ Achievable within the timeframe and budget
- ▶ Grounded in theory

Importance of educational research

- ▶ Educational research is important because of contributing knowledge development, practical improvement, and policy information.
- ▶ Educators can use those research findings to improve their competencies and teaching and learning process
- ▶ Academic rewards
- ▶ Improving practices
- ▶ Facilitate learning process
- ▶ Verify previous finding

Followed by presentation by Dr.Rajeswari.H, Vice Principal, Head of the department of psychiatric Nursing, on Importance of Nursing Research, she stressed that without research there was no professional growth, motivated audience for doing of projects. She explained in depth on importance of research in nursing administration, in nursing education and in nursing service.

In post lunch 2PM TO 3:30PM Dr.Ram Mohan explained in detail about Microsoft excel, foot note, pivotal table. He demonstrated the basic shortcuts using commonly in data analysis and described in detail about Microsoft excel. He explained that PivotTable is a powerful tool to calculate, summarize, and analyze data and also to comparisons, patterns, and trends in data. Audience clarified their doubts related to data analysis.

OVERALL ANALYSIS:

DISTRIBUTION OF LEVEL OF KNOWLEDGE

Table: 1 frequency and percentage distribution of knowledge in pretest and post test.

N=57

GRADE	PRE TEST		POST-TEST	
	FREQUENCY	PERCENTAGE	FREQUENCY	PERCENTAGE
	(F)	(%)	(F)	(%)
A+	0	0	31	54.3
A	3	5.26	26	45.6
B+	10	17.54	0	0
B	24	42.1	0	0
C	12	21.5	0	0
D	8	14.03	0	0
TOTAL	57	100	57	100

With regard to the level of knowledge on workshop on education care and research among participants, the pretest results shows that 3(5.26) scored “A” grade, 10(17.54%) participants scored “B+” grade, 24 (42.1%) participants scored “B” grade, 12(21.5%) scored C grade, 8 (14.03 %) scored D grade, While in the post test, the knowledge level improved as 31(54.3 %) participants scored “A+” grade, 26 (45.6%) scored “A” grade and there was no participants in B+, B, C and D grades.

The results indicate that participants level of knowledge on education care and research has enhanced the level of knowledge.
