You must first clearly describe a specific problem found in your community or area of interest, design a program that will address it, and then describe the program in detail for the grant maker (funding source). If this is your organization's first attempt at applying for a grant, the entire process will benefit your organization. Your goal is to end up with a well-conceived proposal that lays out a strategy to address the problem, as well the funding to pay for it. International Organisations like: European Commission (EC), ICEF (India - Canadian Environment Facility), OECD/Hunger Campaign, United Nations Centre for Human Settlements (UNCHS), United Nations Food and Agricultural Organization (FAO) and UNESCO.
